

## **CGS Awards and Honours: Brief Description and Past Recipients**

Each year, the CGS recognizes and publicizes the considerable contributions and achievements of its members to the advancement of the geotechnical field in Canada and abroad. The recognitions are in the form of a suite of CGS awards and honours, many of which are presented during the annual Canadian Geotechnical Conference.

This document provides a brief description and lists the past recipients of each of the CGS awards and honours. If you are aware of any errors or omissions to these lists, contact the CGS Headquarters with the appropriate information.

The awards and honours are listed in the order that follows:

### **1. CGS SOCIETY AWARDS**

- 1.1 Legget Medal (the most senior CGS award)
- 1.2 RM Quigley Award (best paper published in the Canadian Geotechnical Journal during the preceding year)
- 1.3 Honorary Life Membership

### **2. CGS DIVISION AWARDS**

- 2.1 G Geoffrey Meyerhof Award (Soil Mechanics and Foundation Division Award)
- 2.2 Thomas Roy Award (Engineering Geology Division Award)
- 2.3 Roger JE Brown Award (Cold Regions Geotechnology Division Award)
- 2.4 John A Franklin Award (Rock Mechanics Division Award)
- 2.5 Geosynthetics Award (Geosynthetics Division Award)
- 2.6 Geoenvironmental Award (Geoenvironmental Division Award)

### **3. CGS JOINT AWARDS (CGS and other organizations)**

- 3.1 Robert N Farvolden Award (Groundwater Division Award with CNC IAH)
- 3.2 Robert Schuster Medal (Landslide Committee and Engineering Geology Division Award with AEG)

### **4. CGS STUDENTS AWARDS**

- 4.1 Graduate Student Presentation Award
- 4.2 Undergraduate Student Awards
- 4.3 Michael Bozozuk Canadian Foundation for Geotechnique National Graduate Scholarship

### **5. CGS SERVICE AWARDS**

- 5.1 AG Stermac Award
- 5.2 Certificates of Appreciation

### **6. CGS HONOURS (Lectures)**

- 6.1 RM Hardy Keynote Address
- 6.2 Colloquium Lecture
- 6.3 Cross Canada Lecture Tour

## 1. CGS SOCIETY AWARDS

### 1.1 Legget Medal

For significant lifelong contribution to the geotechnical field in Canada. This is the most senior and prestigious CGS award. It is an annual award.

Established in 1970, the award honours Dr Robert F Legget (1904–1994), a civil engineer known nationally and internationally for his contributions to engineering, geology, building research and the standardization of Canadian national building codes. Dr Legget was the first director of the Division of Building Research of the National Research Council of Canada. For more information about Dr Legget see <http://www.cgs.ca/lives-lived.php?lang=en>.

Prior to 2000, the award was a framed certificate. Since 2000, a medal has accompanied the framed certificate. The Legget Medal was designed by Dr Michael Bozozuk, a colleague of Dr Legget's and, at the time, the President of the Canadian Foundation for Geotechnique. One side of the medal has Dr Legget's likeness, while the other has the CGS logo and the recipient's name. The medal has thirteen 'flats' (edges) representing Canada's ten provinces and three territories. It is made of sterling silver, toned and lacquered to prevent tarnishing. It is pressed by the Royal Canadian Mint.

### 1.2 RM Quigley Award

For the best paper published in the Canadian Geotechnical Journal in the preceding year. Three runners-up are also recognized. This is an annual award.

Established in 1973 as the CGS Prize, it was renamed in 1995 to honour Dr Robert M Quigley (1934-1995). Dr Quigley taught for many years in the Civil Engineering Department of the University of Western Ontario, and was founding director of the Geotechnical Research Centre of that institute. Dr Quigley was Associate Editor of the Canadian Geotechnical Journal, 1974-1979, and Editor, 1980-1984.

## **2. CGS DIVISION AWARDS**

### **2.1 G Geoffrey Meyerhof Award**

Award of the Soil Mechanics and Foundation Division. For outstanding contribution to soil mechanics and foundation engineering. This is an annual award.

Established in 1993, this award honours Professor Meyerhof (1916-2003), the first President of the CGS, for his outstanding life-long contributions to the profession and the CGS, and for his numerous achievements that have received worldwide recognition. For more information about Professor Meyerhof see <http://www.cgs.ca/lives-lived.php?lang=en>.

## 2.3 Roger JE Brown Award

Award of the Cold Regions Geotechnology Division. For outstanding contribution (publication or otherwise) to permafrost science or engineering. Since 1999, it has only been awarded in even years.

Established in 1986, this award honours Roger JE Brown (1931-1980), a renowned Canadian physical geographer and researcher in the field of permafrost. Dr Brown spent his entire career, starting in 1953, with the Division of Building Research of National Research Council Canada. Among other things, he prepared the first map on the distribution of permafrost in Canada, published in 1967 and the first Canadian book on permafrost "Permafrost in Canada: Its Influence on Northern Development", published in 1970.

### 3. CGS JOINT AWARDS (CGS and other organizations)

#### 3.1 Robert N Farvolden Award

Award of the Groundwater Division; joint award with Canadian National Committee of the International Association of Hydrologists. For outstanding contribution to groundwater science or engineering, by an individual or group, that emphasizes the role or importance of groundwater. This is an annual award.

Established in 2000 as the Hydrogeology Award, it was renamed in 2002 to honour Dr Robert N Farvolden (1928-1995). Dr Farvolden was a professor and chair of the Department of Earth Sciences at the University of Waterloo, and a former Dean of Science at the university. He is credited with beginning the modern era of hydrogeology in Canada in the 1960s. Dr Farvolden was instrumental in founding the Water Centre for Groundwater Research, and served as Chair of Regional Hydrogeology for the WCGR.

#### 3.2 Robert Schuster Medal

Award of the Landslide Committee and Engineering Geology Division; joint award with the Association of Environmental and Engineering Geologists. For outstanding contribution to geohazards research in North America. The medal alternates between a US and Canadian recipient each year. Currently awarded to a Canadian in odd-numbered years.

Established in 2007, this award honours CGS and AEG member Dr Robert Schuster (b 1927), who was the recipient of the first medal. Dr Schuster has had a distinguished career with the US Army, in academia, with the US Geological Survey and in national and international consulting, primarily in the field of Engineering Geology and primarily related to geohazards.

### 4. CGS STUDENTS AWARDS

#### 4.1 Graduate Student Presentation Award

Established in 1988 as the Graduate Student Paper Award, this award encourages, recognizes and rewards excellence in presentations of papers by geotechnical graduate students. The competition endeavors to increase graduate student awareness of, and involvement with, the CGS. In 2002 the name of the award was changed to the Graduate Student Presentation Award.

## 4.2 Undergraduate Student Awards

Established in 1988 as the Undergraduate Student Thesis and Report Awards, these awards recognize and reward excellence in the preparation of an undergraduate theses and reports. The competition endeavours to increase undergraduate student awareness of, and involvement in, the CGS. In 1990, an additional category, geotechnical design reports prepared by one or more undergraduate students, was added. In 2002, these awards were changed to Undergraduate Report Award (Individual Submission) and Undergraduate Report Award (Group Submission).

### 4.3 Michael Bozozuk Canadian Foundation for Geotechnique National Graduate Scholarship

Established in 2007, the Canadian Foundation for Geotechnique National Graduate Scholarship is funded by the Canadian Foundation for Geotechnique. Although strictly not a CGS Award, the awardee is selected by a CGS committee and the scholarship is presented at the annual Canadian Geotechnical Conference. In 2014, the Foundation added Michael Bozozuk's name to the scholarship to recognize his long-standing involvement with the Foundation.

## 5. CGS SERVICE AWARDS

### 5.1 AG Stermac Award

For outstanding service over a period of time to the CGS by a member or members at the local, national or international level.

Established in 1997 as the CGS Service Plaque, in 1999 the award was renamed the AG Stermac Award to honour AG (Tony) Stermac (1922-2002) who retired in 1998 after serving for 12 years as CGS's first Director General (the position that is currently Executive Director, or Director Général in French). Mr Stermac served as editor of the Canadian Geotechnical Journal 1971-1974 and also served a term as President of the CGS (1983-1984). For more information about AG Stermac see <http://www.cgs.ca/lives-lived.php?lang=en>.

## 6. CGS HONOURS (Lectures)

### 6.1 RM Hardy Keynote Address

This address opens the annual Canadian Geotechnical Conference and is presented by a well-known, senior CGS member from the city or section where the conference is being held.

Established in 1987, the RM Hardy Keynote Address honours Dr Robert (Bob) M. Hardy (1905-1985), a distinguished Canadian geotechnical engineer and educator, based in Edmonton AB. For more information about Dr Hardy see <http://www.cgs.ca/lives-lived.php?lang=en>.

### 6.2 Colloquium Lecture

Established in 1977, the Colloquium Lecture is an annual commissioned presentation and paper. It is targeted to a younger member of the CGS, typically <40 years of age at the time of the nomination, to provide information of particular interest to the geotechnical community on topics of importance to the Canadian geotechnical field. Its purpose to encourage and provide an opportunity for a younger member of the CGS to pursue studies required for its preparation. It is presented at the annual Canadian Geotechnical Conference.

### 6.3 Cross Canada Lecture Tour

The first Cross Canada Lecture Tour was presented in 1965. The purpose of the lecture tour is to provide all CGS members, and other geotechnical professionals, across Canada an opportunity to attend high quality technical presentations by prominent Canadian and international geotechnical professionals.

Typically, two lecture tours occur each year: in the Spring and Fall. Each consists of presentations to 10 to 12 CGS Sections across Canada. Customarily one lecturer is a well-known Canadian CGS member; and the other is one is a well-known international individual in the geotechnical field.
