Past CGS Cross Canada Lecture Tour Lecturers (updated October 2019)

The first Cross Canada Lecture Tour was presented in 1965. The purpose of the lecture tour is to provide all CGS members, and other geotechnical professionals, across Canada an opportunity to attend high quality technical presentations by prominent Canadian and international geotechnical professionals.

Typically two lecture tours occur each year: in the spring and fall. Each consists of presentations to 10 to 12 CGS Sections across Canada. Customarily one lecturer is a well-known Canadian CGS member, and the other is a well-known international individual in the geotechnical field.
